

Monmouth County Homeless System Collaborative

The Monmouth County HSC Executive Committee has adopted the following funding priorities for the FY2024 CoC application cycle (in no particular order):

- Permanent Supportive Housing (PSH) for the Chronically Homeless (CH) and Unsheltered – The Executive Committee has prioritized projects providing PSH to CH homeless individuals and families; and those experiencing unsheltered homelessness
- Rapid Re-Housing (RRH) – The Executive Committee has prioritized projects providing RRH for homeless individuals and/or families, including unaccompanied youth and persons fleeing domestic violence
- Leveraging healthcare and other housing resources – The Executive Committee has prioritized projects that provide permanent housing to the chronically homeless keeping in line with federal goals of ending chronic homelessness, specifically those projects collaborating with healthcare resources and that leverage other housing resources

Agencies should incorporate information about these priorities in the project NOIs submitted. Questions regarding these priorities may come up during the project presentation. Agencies submitting NOIs are strongly encouraged to review the NOI funding priorities and to evaluate how the proposed projects fit in with the funding priorities in preparation for the project presentations.

Please remember the NOI submission deadline is June 5th at 4pm.
